Is your project a Meta-analysis research project? (definition provided)

**SAVE/ NEXT**

---

### SUB-CATEGORIES

Select from list (see details at ISEF website)

<https://student.societyforscience.org/intel-isef-categories-and-subcategories>

**SAVE**

---

### FILES & FORMS

Required ISEF forms – all projects: (1) (1A) (1B – one per student)

Other forms as indicated by rules & previous SRC Review

Complete the project survey questions to determine forms needed.

To upload each respective form, click on: “Upload Your File” (light orange box)

Select box for each form you are uploading. Click “Upload File” (blue box)

Click “Browse” Find & select correct file from your computer.

Click “Upload” (blue)

May take several seconds for page to refresh after each upload.

Repeat for each file and for Research Plan.

For Consent & Release Form

Download template. Complete, print, sign, scan. Upload.

Or upload previous Consent Form if completed for County Science Day.

When all files uploaded, go to another Milestone or logout.

---

### DISPLAY REQUIREMENTS

Read all requirements for project poster. Answer two questions regarding display.

**SAVE**

---

UMV District Science Day Administrators will review all submitted information and files. Students will be contacted via email if missing any items. Once all Milestones are green, then registration is complete.

---

### \*TEAMS:

When setting up STEM Wizard account, enter all information for each team member. One account per project. Each student must login to complete the “Fee Milestone” and the “Additional Information” Milestone.

When uploading ISEF Files, first student must login and upload required forms and files, including (1) (1A) (1B), Consent/Release Form and the Research Plan. Second or third student must then login and upload Form (1B) and Consent/Release form.
